

NORTHWEST BOYCHOIR & VOCALPOINT! SEATTLE **BUILDING FOR TODAY AND TOMORROW**

Funding our permanent home in the historic University Heights Center, Seattle

This is an exciting time for the Northwest Boychoir & Vocalpoint! Seattle! In 2017, we plan to strengthen our mission by beginning a much-needed renovation of our space in the historic University Heights Center, the place we've called home for the last 14 years.

After looking at numerous spaces throughout the city, we've determined that our University Heights Center location is ideal. This is where we want to create a permanent home for our organization. We have signed a long-term lease and will begin transforming our space to create outstanding rehearsal and office environments that match the professional level of our choirs, mid-2017.

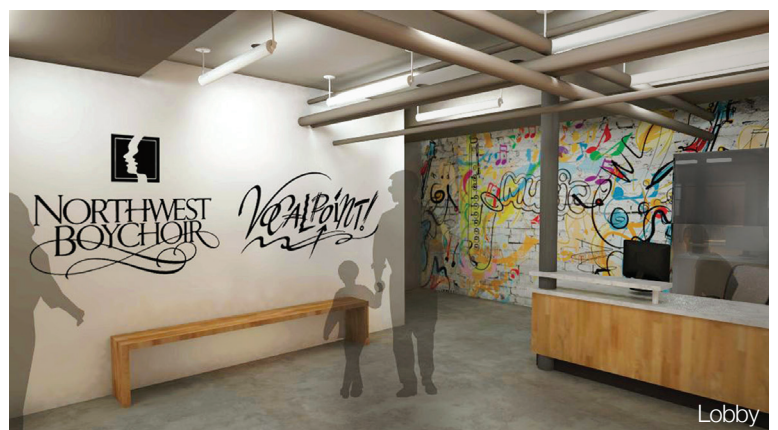

The renovation of our rehearsal and office spaces presents a unique opportunity for us to bring our community together in one shared goal - that of building a place we are all proud to call home for years to come. We will have comfortable, bright, acoustically constructed rehearsal rooms, offices with natural light, and a welcoming space for visitors and potential new members.

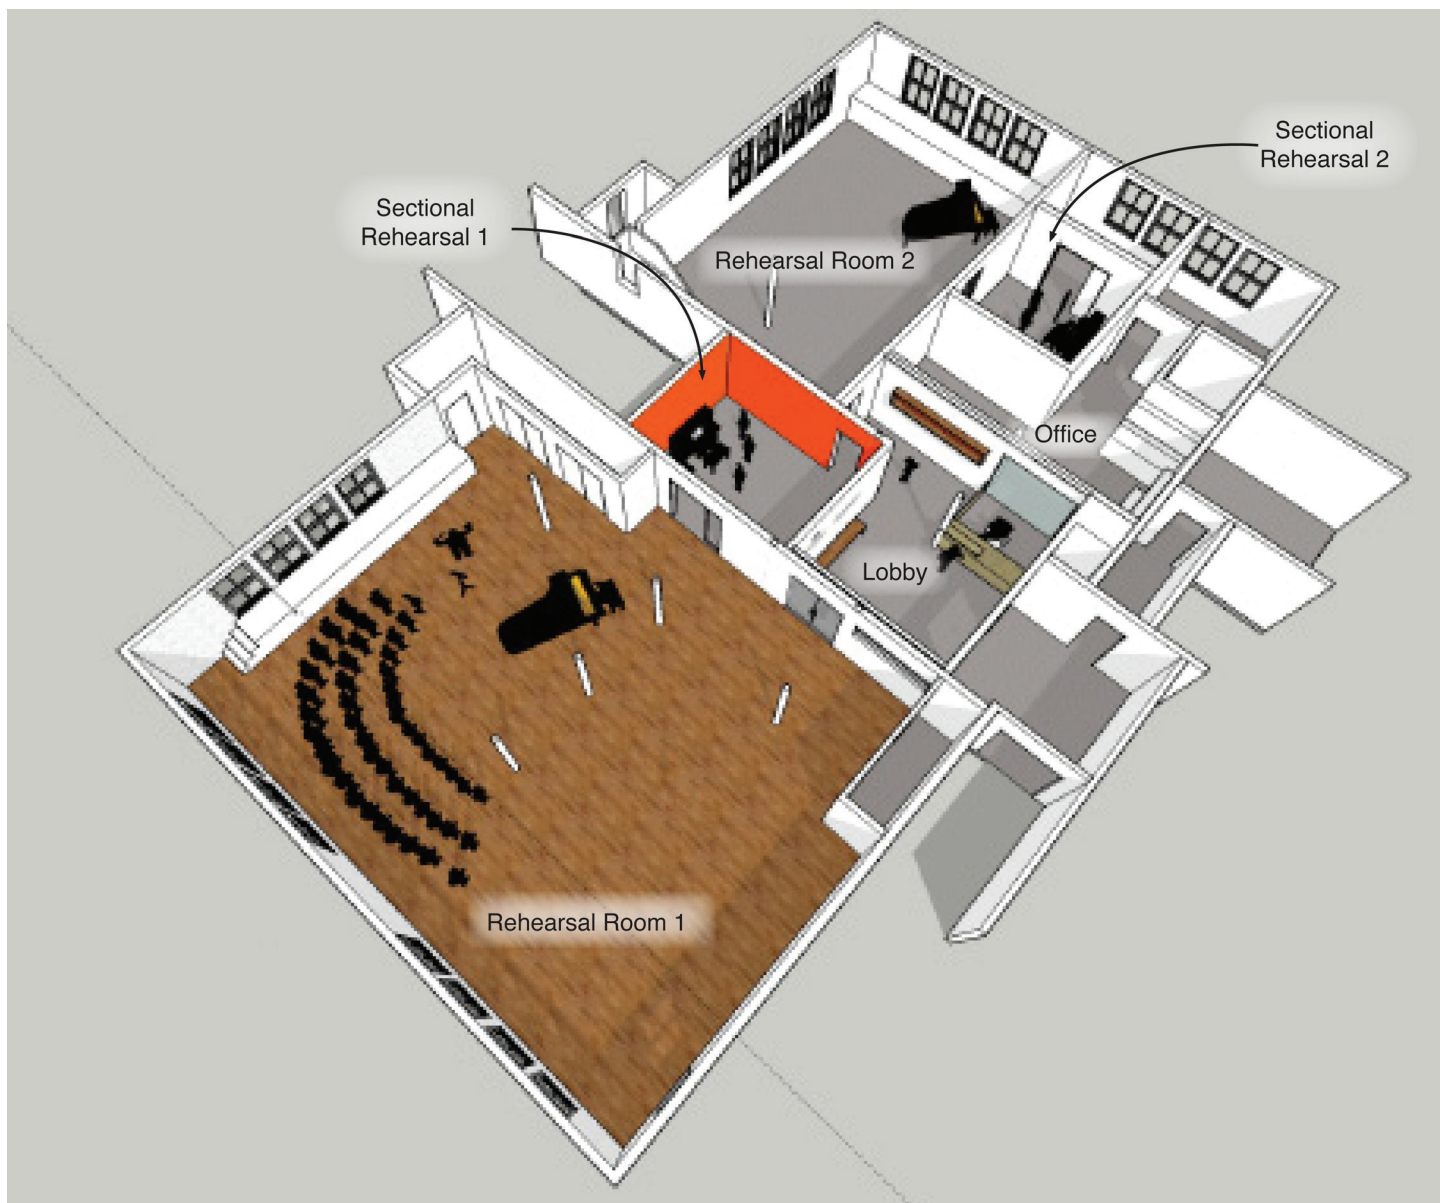

Preparations are underway as we finalize contracts and work with architects, designers and builders. This is a pivotal time for the organization as we create a permanent home with functional rehearsal, classroom and office spaces befitting an organization of our stature. **We're fully invested and we invite you to join us.**
